Sir:

I, M. Todd Rands, hereby declare that I am an attorney of record in the United States Patent and Trademark Office for the above-referenced application, and am authorized to sign for the Assignee of interest, Monsanto Technology LLC, in this matter. I have reviewed the Biological Culture Deposit Receipt on which I have based the following statements.

1. The following material referred to in the specification of the above-referenced application has been deposited with the American Type Culture Collection (ATCC).

<u>TAXONOMIC DESCRIPTION</u>	<u>IDENTIFICATION REFERENCE</u>	<u>DEPOSIT NUMBER</u>
<i>Medicago Sativa</i> (alfalfa)	Event J101(seeds)	PTA-4814

2. The name and address of the depository is:

American Type Culture Collection (ATCC)
10801 University Blvd.
Manassas, VA 20110-2209

This depository is an official depository in accordance with the Budapest Treaty for the abovementioned culture.

3. With respect to the permanence of the culture deposit, the above depository affords permanence of the deposit for at least 30 years, or at least 5 years after the most recent storage request, whichever period is longer. In the event that the deposited seeds become nonviable or are inadvertently destroyed, the Assignee of interest will replace such seeds for at least 30 years from the date of the original deposit, or at least 5 years from the date of the most recent request for release of a sample, or for the life of any patent issued on the above-mentioned application, plus six years to cover the statute of limitations, whichever period is longest.

4. With respect to availability of the seeds, the deposit has been made under conditions of assurance that during the pendency of this application, access to the deposit will be afforded to the Commissioner upon request. Upon the granting of a patent on this application, all restrictions on the public availability of the deposited material will be irrevocably removed.

5. All statements made herein are believed to be true and correct. These statements were made with the knowledge that willful false statements and the like so made are punishable by

fine or imprisonment, or both under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

The seeds were accompanied by: a scientific description a proposed taxonomic description indicated above. The seeds were received November 22, 2002 by this International Depository Authority and have been accepted.

AT YOUR REQUEST: ☒ We will inform you of requests for the seeds for 30 years.

The seeds will be made available if a patent office signatory to the Budapest Treaty certifies one's right to receive, or if a U.S. Patent is issued citing the seeds and ATCC is instructed by the United States Patent & Trademark Office or the depositor to release said seeds.

If the seeds should die or be destroyed during the effective term of the deposit, it shall be your responsibility to replace them with viable seeds of the same.

The seeds will be maintained for a period of at least 30 years from date of deposit, or five years after the most recent request for a sample, whichever is longer. The United States and many other countries are signatory to the Budapest Treaty.

The viability of the seeds cited above was tested December 2, 2002. On that date, the seeds were viable.
